

Master key

Technical data

Type	Silver Metal Electronic Keypad Lock
Material	Zinc alloy
Finished	Powerd coating
Input Voltage	DC3V
Power supply	2 AA 1.5V batteries
Static current	≤30uA
Dynamic current	≤170mA
Use condition: temperature:	-15°C~65°C
Humidity	5% ~ 95%
Key combination	3,000

Features

- Silicone keypad, Touch keypad
- Meets IP54 rating
- Easy to set your own code, and memorized automatically when power off
- Enter password directly without wake up
- Manager code for emergency opening
- Master key for emergency opening
- Low voltage alarm
- Switch between private use and public use mode freely
